

“Tram Friends” fully support tram fare adjustment proposal

Dear Bruno & Arsene,

Knowing the latest news regarding the fare adjustment proposal, Eric and Alan as the representative of “**Tram Friends**” would like to deliver our fully support on it.

We all aware the series of improvement and enhancement executed so far and we assure will continue to bring our traditional tramways into a new era.

We raised our views (positively at HKT side) in facebook against those objection parties.

Best Regards,

Eric Lee and Alan Cheung

About MY Tramways

MY Tramways was founded by **Eric Lee** in 2000. His strong passion and interest in tram motivates himself to continuous design and develop series of modernized and classic tramcars.

As tramcar is not very popular in Hong Kong, it is quite difficult to find and gather a group of people who have the same passion in tram. **Tram Friends** under **MY Tramways** was, as a result, founded and registered in March 2006 in Hong Kong to serve as a platform gathering people with common interest. It aims at promoting and providing a discussion channel on every news among the tram industry. People with common interest in tram are, therefore, given a chance to know each other and exchange their information through the web. By knowing people from different age groups and background, horizon could be broadened and they are surely the assess to help developing tramcar in the future.

~ END ~
